

2021 Our 2021 Rosé's pink salmon hue is a shade lighter than past vintages. There is a delectable weight and mouthfeel for a wine built without oak or much skin contact. Watermelon jolly rancher, passion fruit, nectarine and orange blossom all pop from the glass. The rich, ripe flavors work perfectly with the sturdy acidity, resulting in a lush, balanced finish. Blending some of our warmer and cooler vineyard sites results in a wine with personality that will pair with a wide range of foods.

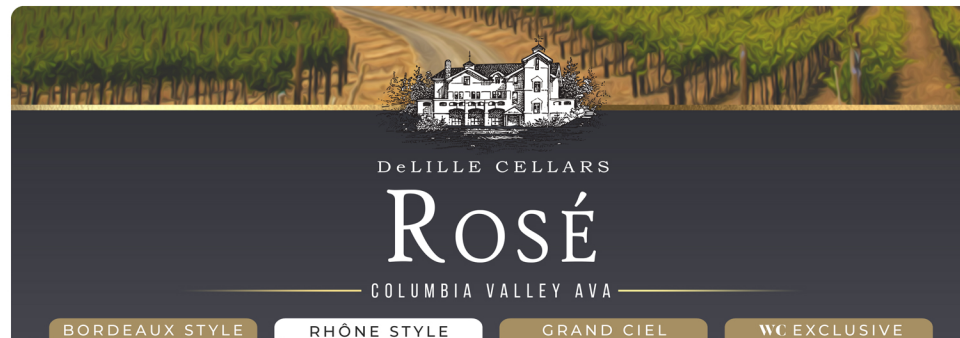

ANTONIO GALLONI VINOUS

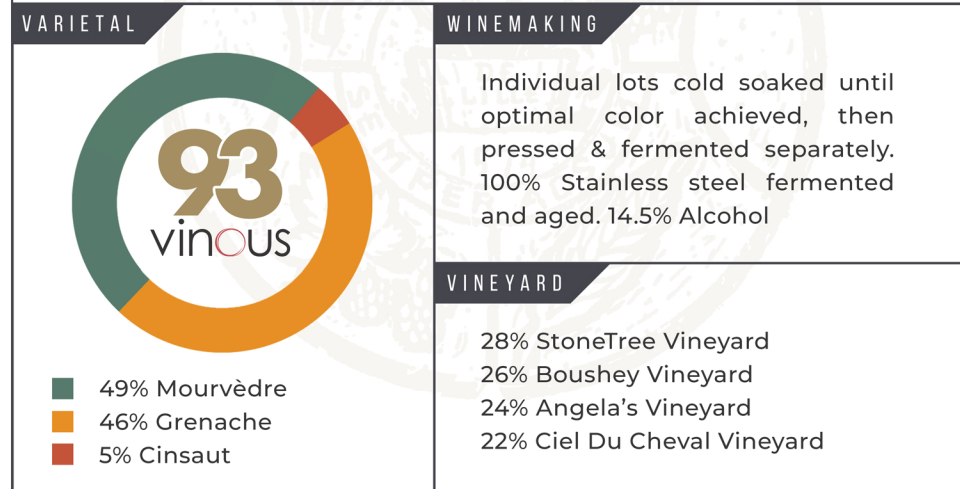

MARCH**2022**

"The 2020 Rosé from DeLille Cellars blends 52% Mourvèdre and 43% Grenache with a splash of Cinsault. The nose is wonderfully earthy and rounded out with melon, citrus blossom and watermelon tones, and the mouthfeel of the wine is seriously good. This is refreshing rosé with bright red fruits that shows a great sense of weight and length. Gratifying to drink now, it also has some cellaring potential."
